

A170

DECT

Superior wideband sound

Lightweight design

Long wearing comfort

HD audio

Comfortable headset with 3 wearing options

The wireless Snom A170 headset offers high quality audio and mobility, thanks to wireless DECT technology with a range of up to 25 m. The lightweight headset has a wideband speaker and microphone with passive noise cancellation for filtering background noise. The headset offers three wearing options: headband, neckband or directly on the ear and features integrated EHS functionality. At the touch of a button, the most important functions such as call acceptance, microphone muting or volume can be controlled directly on the headset. During periods

of intensive use, the battery can be changed at any time, even during ongoing calls. In principle, this makes it possible to make unlimited hands-free calls. The A170 is compatible with the Snom desk phones of the D8xx, D7xx and D3xx series and can also be connected to a PC via the integrated USB port of the base station. With the simple push of a button on the base station, you can easily switch between the phone and PC.

Technical specification

Product variants

A170 (Over-the-head)

A170 (Neckband)

A170 (Over-the-ear)

Basics and equipment

- Product information
 - DECT headset | black | PN 00004387
- Placement: indoor, desktop
- Equipment
 - Ear cushions: leatherette
 - Three wearing styles: over-the-head, neckband, over-the-ear

Dimensions and weight

- Dimensions (L × W × H, approx.)
 - Packaging: 200 mm × 160 mm × 150 mm
- Weight (approx.)
 - 44 g (over-the-head), 36 g (neckband), 22 g (over-the-ear)

Indicators

- Headset
 - Multi-purpose status indication: 1 dual-colour LED
- Base station | charging cradle
 - Mute status indication: 1 dual-colour LED
 - Mode indication (PC / Phone): 2 green LEDs

Keys

- 7 hard keys in total
 - 5 dedicated audio keys
 - Headset
 - Mute
 - Volume + / (miniature control stick)
 - Base station | charging cradle
 - Microphone volume + / -

- 4 dedicated function keys
 - Headset: Call control (with dual-colour LFD)
 - Base station | charging cradle: Phone (with green LED), PC (with green LED)
- 3 switches
 - auto-answer switch, bandwidth switch, sound quality switch

Audio features

- Headset speaker
 - Frequency range: 300 Hz 7.0 kHz
- Microphone
 - Frequency range: 300 Hz 7.0 kHz
 - Passive noise cancelling
- HD audio

Interfaces and connections

- Power options
 - Headset: Battery 2 × 3.7 V, 140 mAh, lithiumion, removable, rechargeable, up to 2 h charging time
 - Base station | charging cradle: Power adapter 100 - 240 V AC / 50 - 60 Hz | 6 V DC / Output 1: 300 mA / Output 2: 450 mA
- Wired interfaces
 - Power adapter: RJ11-6P6C socket
 - Audio source: USB 2.0 type Mini-B port
 - Phone headset adapter: RJ45-8P4C socket
 - EHS adapter: RJ12-4P4C socket
- Wireless interfaces
 - DECT
