

# A330M

Ideal for video-  
telephony

Remote control

Long wearing  
comfort

USB sound card

HD audio

Busylight

## The Snom A330M monaural USB headset

delivers excellent HD audio quality across the entire human auditory frequency spectrum thanks to modern D/A converter technology and an optimised speaker. The soft on-ear cushion with 3 adjustable axes, is very comfortable to wear - even over several hours. Most background noises in the environment are suppressed. The entire voice band is recorded

using a high-quality microphone, digitized and then transmitted via USB to a computer or IP desk phone, which allows using the A330M as a headset with almost any communication software platform. The integrated remote control can be used for call functions, mute and availability and display status via LEDs on the right earpiece and microphone boom.

## Basics and equipment

- Product information
  - Monaural headset
  - PN 00004597
  - Colour: black
- Equipment
  - Ear cushion: 3 axis adjustment, soft leatherette, memory foam filling, designed for full day usage, replaceable
  - Headband: padded for long-term comfort, 35 mm adjustable length
  - 270° bendable, pivotable boom

## Dimensions and weight
