Safety instructions (GPSR)

- The nameplate is located at the bottom or rear of the product.
- **Warning:** Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
- **Warning:** The product included (ITE) in this manual is to be connected only to PoE networks without routing to the outside plant.
- The socket outlet for the power adaptor must be near the equipment and easily accessible.
- Mount the device only at heights not exceeding 2 m.
- Follow the instructions in this manual and other applicable documentation of the device.
- If the phone is not supplied with power via the Ethernet cable, use only the power adapter expressly recommended by Snom Technology. Other power supplies may damage or destroy the phone, affect its behavior, or induce noise.
- Avoid placing the cables where people may trip over them or where they may be exposed to mechanical pressure as this may damage them.
- This device is for indoor use only! NOT FOR OUTDOOR USE!
- The operational temperature is between 5 °C to +45 °C (41 °F to +113 °F), humidity not exceeding 95 % and non-condensing.
- Do not install the device in rooms with high humidity (for example, in bathrooms, laundry rooms, damp basements). Do not immerse the device in water and do not spill or pour liquids of any kind onto or into the device.
- Do not install the device in surroundings at risk for explosions (paint shops, for example). **Do not use the device if you smell gas or other potentially explosive fumes.**
- Do not use the device during thunderstorms. Lightning striking the power grid may cause electric shocks.
- **Warning:** The handset contains a magnet, and its earpiece may attract small dangerous objects such as needles or pins. Please ensure before each use that no such objects are present.

- Safety status of input/output connections comply with SELV requirements. **Warning:** To avoid electric shock, do not connect safety extra-low voltage (SELV) circuits to telephone-network voltage (TNV) circuits. LAN ports contain SELV circuits, and PSTN ports contain TNV circuits. Some LAN and PSTN ports both use RJ-45 (8P8C) connectors. Use caution when connecting cables.

Standards conformance

This device complies with the essential health, safety, and environmental requirements of all relevant European directives and UK and AU legislation. You can download the declaration of conformity at <https://www.snom.com/conformity>.

Unauthorized opening, changing, or modifying the device will cause the warranty to lapse and may result in the loss of conformity. In case of malfunction contact authorized service personnel, your seller, or Snom.

Disposal

This device is subject to European Directive 2012/19/EU (WEEE) and may not be disposed of with general household garbage. If you do not know where to dispose the device at the end of its lifespan, contact your municipality, local waste management provider, or vendor.

Cleaning

To clean the device, use an antistatic cloth. Please avoid cleaning liquids as they might damage the surface or internal electronics of the device.

Further information

You can find further information in [English on the HD340 product page](#).
